IND780 Standard PLC Sample Code Information:

Fieldbus Type	File Name	Title/Short Description	Description
AB_RIO	IND780_ABRIO_SampleCode.zip	Sample code for ControlLogix version 16 and 20	The zipped file containing the PLC sample code for AB RIO. A float, shared data access file (RC20) and a floating point and integer sample with shared data access (RC16) are in this zip file.
AOI	IND780_AOI_IntDiv_Input_Data_ABRIO-CNET-ENET.zip	AOI for IND780 AB_RIO, ControlNet, and EthernetIP	The Add-On instructions for IND780 created using RSLogix5000 v16. Applicable for integer and divisions data formats on AB_RIO, CNet, and ENet/IP. Input Data file (IND780_IntDiv_Input_Data.L5X) is also included in this zipped folder.
ControlNet	IND780_ControlNet_SampleCode+ConfigFiles.zip	Sample code and configuration files for ControlLogix version 16	The zipped file containing PLC sample code for ControlNet. The integer and float point sample code was written in RC16. The EDS configuration files are also included in the zipped file.
DeviceNet	IND780_DeviceNet_SampleCode+ConfigFiles.zip	Sample code and configuration files for ControlLogix version 16	The zipped file containing PLC sample code for DeviceNet. The integer and float point sample code was written in RC16. The EDS configuration files are also included in the zipped file.
Ethernet IP	IND780_EthernetIP_ControlLogix_SampleCode+ConfigFiles.zip	Sample code and configuration files for ControlLogix version 16 and 20	The zipped file containing PLC sample code for EthernetIP fieldbus type. There is AOP integer and float point data type written in RC16 and RC20, explicit message feed (RC16), and float point 2 speed feed (RC16).
	IND780_EthernetIP_SLC_SampleCode.zip	Sample PLC code for Rockwell SLC 5_05	The zipped file containing two PLC sample code files for EthernetIP fieldbus type. Sample code written in Rockwell's SLC 5_05.
Modbus TCP	IND780_ModbusTCP_SampleCode.zip	Sample code for ControlLogix version 20	The zipped file containing PLC sample code for Modbus. Contains current integer and float point PLC code written in RC20.
PROFIBUS	IND780_PROFIBUS_SampleCode+ConfigFiles.zip	Sample PLC code and configuration files for PROFIBUS Step7 v5.5	The zipped file containing three sets of PLC sample code for IND780 PROFIBUS along with the GSD configuration file.

IND780 Standard PLC Sample Code Information:

PROFINET	IND780_PROFINET_Step7v5.5_SampleCode+ConfigFiles.zip	Sample PLC code and configuration files for PROFINET Step7 v5.5	The zipped file containing two PLC sample code files for IND780 PROFINET. One is for integer data type and the other is for floating point data type. The GSDML configuration XML file is also included.
	IND780_PROFINET_TIAPortal_SampleCode+ConfigFiles.zip	Sample PLC code and configuration files for PROFINET (TIA Portal)	The zipped file for IND780's PROFINET fieldbus type. Two sets of PLC sample code written in TIA Portal are contained in the zipped file. One is for integer data type and the other is for floating point data type.
