Introduction to ReactIR™
User Training

A combination of hands-on and classroom based training will prepare scientists to obtain high-quality reaction data, analyze it correctly, and report meaningful results that support their research efforts.

Topics Include

- Mid-FTIR Basics
- ReactIR Method of Measurement
- Acquiring High-Quality Reaction Data
- Analyzing ReactIR Data Using Common Data Treatments

- Using iC IR™ Software
- Probe Cleaning & Care
- Common Reaction Monitoring Questions
