- 5.1. Maintenance Provider
- 5.2. Maintenance Recommendations
- 5.3. General Comments

6. Service Activities Following Installation

1.2 Scope

This StarterPac documents the installation and verifies that the equipment performs as intended. Completion of the StarterPac ensures a professional installation, producing documentation ideally suited for confirming the readiness of your weighing system.

StarterPac's are performed by a trained and authorized METTLER TOLEDO Service Technician.

Procedure Statement: The equipment referenced in this document has been installed in accordance with the METTLER TOLEDO Work Instruction (document number SVC-WI-LABTEC-061).

Note: The abbreviation N/A in this entire document means "Not Applicable."
